## The DIMMER VIEW

by Max Goodwin

### One Nation - One Flag

One of our more avid readers insists that we take a stronger stand in condemning some of antics that are carried on under the University at San Diego banner — like maybe declaring war on UCSD?

In doing some of the backbreaking homework on the subject, we ran into an old friend, David Hellyer, presently the research expert for KOGO, a Time-Life teevie outlet.

Hellyer, an expert in Latin-American affairs, was editor-publisher of the SANTIAGO SOUTH PACIFIC MAIL, Chile's oldest American language newspaper. He was forced to close it by the communist-dominated union which enforced the abdication of Mr. Hellyer.

Hellyer had just done a study in depth on a UCSD matter for Time-Life General Manager Clayton Brace. The material was whipped into a scathing editorial which Brace delivered via KOGO teevie, KOGO radio and KOGO FM over a two-day period.

Because the research was so well done, and because it answered so completely the questions we had regarding the college-foreign policy problems, we are reproducing KOGO's comments.

#### Quoth Brace:

"Two events on the University of California campus here made news recently . . . news which irritated most San Diegans. One involved a number of students who raised North Vietnam's colors on Revelle Plaza. The other involved 20 professors and 40 students who signed a cable to Japanese militants congratulating them for demonstrating against the U. S. carrier Enterprise.

"By the way, it may surprise you to learn that the North Viet flag and the North Korean colors still are hoisted from time to time on the Revelle quad by the same students.

"But across the quad, where a month ago there was nothing, now stands a handsome new flagpole bearing the U. S. colors — thanks to funds raised by more patriotic members of the campus community.

"Now . . . as for the 20 professors and 40 students, their congratulatory cable was addressed to the Zengakuren, a group whose most militant sector is known to be dominated by the Communist Party of Japan. This astounding cable said, in part:

"We, the undersigned students and faculty members at the University of California at San Diego congratulate you for your courageous and persistent anti-imperialist action in Sasebo and Tokyo . . .

"KOGO does not agree with their views, but we do defend their right to express them. The issue, here, is the fact that these cable-writers identified themselves as members of the UCSD community. By doing so, they implied that the full weight and prestige of the University of California stood behind their message.

"Who among us, who works for any organization—public or private—would so irresponsibly involve his fellow workers, his company, or his institution? KOGO argues that they should have signed as individuals, without reference to UCSD. Instead, they smeared the entire university by implication.

" . . . Our views are shared by more than 100 students and professors who have signed a statement demanding that the cable-writers apologize publicly.

"As for the beatniks who hoist the enemy's colors on the quad, we write them off for what they obviously are: immature publicity-seekers.

"Now . . . we raise these matters to make a point. Suppose I take this brush, and make a dot . . . so. What do you see? OK . . . you see a smudge. But just a smudge? What about the great expanse of clean paper around it?

"In our book, the cable-writers and the handful of sympathizers with the flags are the smudge. And all around them is the great unsullied mass — the rest of the University. In this mass are thousands of serious students and scores of dedicated professors. But we don't hear from them. They're too busy improving their minds, too busy teaching or learning, to waste their time with publicity-seeking nonsense.

"Let's keep the picture in focus. Every time some misguided individual hoists the Communist colors or pens a congratulatory note to those who hate us . . . let's ignore the smudge, and remember the mass."

Meanwhile, John Stull, the 80th District Assemblyman from our North County, fired off a wire to the Board of Regents, to Governor Reagan, and to UC President Charles Hitch.

As cogently as anyone could, Stull spelled it out. He sent us a copy of the wire.

"SIR: THE DISURBANCE THAT ERUPTED MONDAY ON THE CAMPUS OF THE UNIVERSITY OF CALIFORNIA AT SAN DIEGO IS DIRECTLY TRACEABLE TO YOUR DISASTROUS SHORT-SIGHTED "TWO FLAGS" POLICY. THE SOPHISTRY OF THE ARGUMENT THAT THE DISPLAY OF THE ENEMY FLAG IS PERMISSIBLE AS PART OF "FREE SPEECH" FALLS APART IN THE LIGHT OF REALITY. IT WAS INEVITABLE THAT THE ENEMY SYMPATHIZERS SHOULD ONE DAY HOIST THEIR FLAG ON THE U.S. FLAG STANDARD. THE CAMPUS CANNOT EXIST UNDER TWO FLAGS. DEMAND THAT YOU CHANGE YOUR COLLISION COURSE TO FURTHER VIOLENCE IMMEDIATELY. THE UNIVERSITY IS SUPPOSED TO BE A PLACE OF LEARNING NOT INCIPIENT SEDITION."

Then, to back up his determination, Stull introduced legislation in the Assembly last week making it illegal to display the flag of North Vietnam, the Viet Cong, or any other nation or group engaged in open hostilities against the U.S.

model Chevrolet out of trouble. The car at one point was submerged with water. The Lemon Grove Fire dept. recorded 1.82 inches of rain during the storm. Rain this year, to date totals 9.56 inches while last years total read 10.29 on the same date.

## New Business Development Planned on West Broadway

A three-quarters of a million dollar business and professional improvement is scheduled for early site development at the intersection of Broadway, College and Federal, just west of the Lemon Grove business community, it was announced this week.

The announcement was made by Robin Dean, a spokesman for Coldwell Banker and Co., a real estate sales and development firm.

Dean said the property, which covers 10 acres and stretches for approximately 1,000 feet on the south side

of Broadway/Federal, is a project of the Harbor Management Corp. James and Benjamin Polak, well-known area property developers, are principals of the firm.

The Polaks developed the property along the west side of Jackson drive, opposite Grossmont Shopping center. A similarly high-quality development is planned for the Broadway/Federal property.

The firm will extend College Avenue 150 feet into the property, creating two additional corners. A 4-way stop light there is envisioned. Dean said College ave. would eventually be extended by the County Road Department to channel traffic south and east.

Two gasoline service stations, one at each corner are planned. A restaurant development in the area nearest the Bowlero is also scheduled. An equipment rental firm and a tire, battery and auto accessory firm have acquired locations in the development.

An office building will be built on the property when enough tenants have been acquired. Store buildings for retail sales organizations will be developed as the project moves along, Dean said.

Approximately two of the ten acres will be held for future development.

Site preparation, including curbs and gutters will get under way in about a month, Dean said. Coldwell and Banker will be sales and leasing agents for the project.

Henry A. Boney

## Supervisor H. A. Boney To Seek Office Again

Board of Supervisors Chairman Henry A. Boney has declared himself a candidate for re-election to the Board of Supervisors from the second district.

"County government is where the action is," Boney said. "We are faced with the challenge and the opportunity of dealing with the really great problems of the day, including air pollution, mental health, law enforcement, recreation and, of course, welfare of every sort.

"I for one am not satisfied that county government has fully accepted its responsibilities in these areas."

Boney, who is completing his first four year term on the Board, discussed his accomplishments including expansion of the County Library System, reorganization of various County departments, establishment of the San Diego County Flood Control District, improved County Court Facilities and annual budget analyses which resulted in substantial budget cuts in 1965, '66 and '67. Boney said he had also been active in obtaining a state medical-correctional facility for San Diego County and had initiated action locally which may result in \$155,000,000 in property tax relief for California taxpayers.

Boney, 53, is the founder and former President of Speedee-Mart Inc., a grocery store chain. He has long been active

### 'Cold War' Laws Seen by J. Utt

Congressman James B. Utt (R-35th) has joined twelve fellow Republican Congressmen in introducing a bill (H.R. 15512) to strengthen the internal security of the United States.

The "Internal Security Act of 1968" would amend existing laws to account for the dramatic change in conflict usually described as the "Cold War," Utt said.

"In addition, some key words in previous laws enjoy a precise legal meaning. The enemy is sophisticated enough to take advantage of that, bringing about such interesting Supreme Court rulings as the recent one granting any Communist seeking defense plant employment a 'right-to-work' law of his own," Utt said.

"The limited security provisions this nation has made law are wholly inadequate today. This legislation moves to close the most gaping loopholes in our security system. Still, it represents amendments to some 60 sections of a dozen laws ranging from Internal Security acts to Social Security and Internal Revenue laws. In addition, some amendment is required of the Rules of the Supreme Court and at least two Executive Orders," Utt said.

## Crime Rises 16 Percent During Past Year

Serious crime in the United States increased 16 percent in 1967 when compared with 1966 according to figures made available today through the FBI's Uniform Crime Report and released by Attorney General Ramsey Clark.

FBI Director J. Edgar Hoover said all Crime Index offenses registered substantial increases in volume. Crimes of violence were up 15 percent, led by robbery of 27 percent, murder 12 percent, forcible rape 9 percent, and aggravated assault 8 percent.

The crimes against property rose by 16 percent as a group. Individually, auto theft rose 17 percent while burglary and larceny \$50 and over in value were each up 16 percent.

Mr. Hoover stated crime increases were reported by all city groups, with the sharpest change in volume noted in the large core cities 250,000 and over in population up 17 percent.

The suburban areas recorded an overall increase of 16 percent while the rural areas were up 13 percent in volume.

The crime increases, according to Mr. Hoover, were consistent throughout the United States. The Northeastern and North Central States were each up 18 percent, while the Western and Southern States reported an average increase of 15 percent.

The FBI Director noted that serious assaults where a gun was used as the weapon rose 22 percent and that one out of every five assaults was committed with a gun.

The vicious street crime of armed robbery had a sharp upswing of 30 percent and a firearm was used in 58 percent of all robbery offenses.

The figures released by the FBI disclosed that in 1967 police arrests for all criminal acts, except traffic offenses, increased 4 percent.

Arrests of adults, which declined slightly in 1966, rose by 3 percent in 1967. Arrests of persons under 18 years of age continued to rise in 1967 with an increase of 8 percent.

Included in the increased police arrests was an ising volume of arrests for offenses against public order.

In San Diego murder and non-negligent manslaughter showed an increase of 5 cases over the 1966 total of 12. In forcible rapes an increase of six was indicated to bring the 1967 total up to 66.

Robbery cases were up 32 over the '66 total while burglary and breaking and entering showed an increase of more than 500 cases.

Larceny cases of \$50 or more increased by 1,000 cases. Auto theft showed an increase of 200 while aggravated assault increased by 32 cases.

## Teachers Torn Between Professional And Personal Dissatisfaction

Teachers throughout the country are torn between professional obligation and personal dissatisfaction. The year 1968 has brought dissent, discord and further polarization for teachers and Board of Education officials.

Exactly how far should a teacher go in expressing his criticism? This will be one of the topics analyzed in depth in "The Teacher in the Culture of Today."

This 10-week course offered by University of California Extension will meet beginning Wednesday, March 27, 7:45 p.m. at Roosevelt Junior High School, San Diego.

The instructor will be Melvin Steinfield, teacher of social sciences at San Diego Mesa College. Featured guest lecturers include Joseph Gregory, president of the San Diego Teachers Association and Robert Holden, president of the San Diego Federation of Teachers.

The course will cover such questions as: how should teachers organize themselves, teaching in a segregated school and legal rights versus professional obligations.

It is one of 33 education courses offered by University Extension for the spring quarter beginning March 25. Education courses will be held in

12 locations from Chula Vista to Carlsbad, and cover a wide range of instructional matter such as, teaching specially gifted or disadvantaged children, teaching various elementary school subjects, adult education, music and art education and many more.

To register for these courses or make inquiry about these and the other 140 courses offered by University Extension this spring, write P.O. Box 109, La Jolla; or call 453-2000, ext. 2061.

## Three Days To Buy 25 Flags

# Teenagers Support America

by Jack Pollard

"They have taken the prayer out of the schools... patriotism is not what it should be... try buying an American flag... it might be the next thing to vanish from the scene."

These are a few of the comments made by 20-year-old Randall Hanna, 8662 Jamacha rd., Spring Valley. He is in charge of "Support."

Support is an organization of teenagers that back our men in Vietnam. The are concerned with patriotism in America.

To demonstrate their desire to make more Americans aware of the need to support our men in Vietnam they marched in Spring Valley Saturday morning.

Twenty-three teenagers marched in the morning. Hanna said that a poor turnout was made because of the threat made by overhead rain clouds.

One of the greatest problems in organizing the parade was getting American flags for the teenagers to carry.

**Three Days To Buy 25 Flags**  
Hanna said that it took him more than three days to get 25 hand sizes flags for his group to carry. He had tried stores in the Spring Valley-Lemon Grove-La Mesa area and was able to purchase only a few.

He spent the next two days in the surrounding area shop-

ping centers in order to bring the total up to 25 flags.

Hanna said, "It is real hard to find flags in stores. In the big shopping centers you can still find a few. It is hard to find Americanism any more, people are afraid to get out and show their spirit to our country."

**It Is No Joke**

Hanna did not want to go to any Veterans organization. He said "We teenagers feel that we want to do all of the work and we should not have to go to any Veterans group to get American flags—we should be able to get them in stores. It is no joke when you can't buy an American flag in a store."

Hanna is right. At any time not too long ago, any American could purchase our flag in the nickel and dime store and even in the candy store. Try to find a candy store today where you can buy an American flag.

Hanna remarked that only one teenager had requested to keep an American flag after the Spring Valley march. He did say that one man walked out of a store and gave his group a \$1 donation. The man said, "There should be more teenagers like you."

**Next March**

The head of Support said that they will march in Imperial Beach next. He has appointed Larry Nixon, a Ma Vista High School student to head up that march.

Hanna said that he hopes to have groups of "Support" throughout Southern Califor-

nia. Patriotic marches, the manufacturing of patriotic buttons, collecting items for service men in Vietnam, and bringing to the attention of fellow young Americans that Communism is a threat to the free world are the prime goals of his group.

Any teenagers interested in joining the organization can get in touch with Hanna at 8662 Jamacha rd., Spring Valley. Hanna said that he could use financial help from any persons interested in aiding "Support."

In looking forward to the next march Hanna said, "I am proud to be an American and do what I am doing. If it rains on that day, we will still march... our men in Vietnam don't drop their guns when it rains."

## Word of Caution

### By Highway Patrol

Automobile owners who disconnect, modify or alter their vehicle's crankcase anti-smog device can expect detection when their cars are checked in the California Highway Patrol's vehicle inspection lanes.

This word of caution came today from Captain B. Gautschi, commander of the Patrol's San Diego area, in discussing the program in which a team of CHP officers inspect passenger cars at special locations that change from day to day.

"Violations of the motor vehicle pollution control, or anti-smog, law account for only about two percent of the total detected in the passenger vehicle inspection program," Captain Gautschi said, "and in some instances it is likely that the violation was not intentional."

Nevertheless, appropriate enforcement action will be taken whenever the inspection officers find that a crankcase device has been disconnected, modified or altered in violation of the vehicle code.

The Patrol commander noted that lamp violations continue to lead the safety equipment defects observed in the inspection lanes.

## Governing Board Holds Special Meeting Tonight With UCLA Prof.

The Grossmont Union High School District Governing Board will meet with Dr. Claude Fawcett tonight in the District Board Room on Murray dr. at 6 p.m. to discuss the procedure to be followed in selecting a new superintendent.

The opening, caused by the resignation of Dr. John Warburton, will be the only matter which is scheduled to be discussed by the board.

The Governing Board cancelled the regularly scheduled second meeting in March (March 18).

In other board action on March 7, they authorized a letter to the Santee School District Board indicating interest in its proposal to combine transportation systems.

The amalgamation would include the Santee and Grossmont School Districts for the Santee, Lakeside, and Alpine areas.

The Board authorized Superintendent Warburton to meet with H & N Construction Co., and the Otay Water District

to negotiate details connected with a proposed easement to be granted along the southerly boundary line of the Hillsdale/Jamacha school site.

They also gave approval to the District administration to submit the necessary application forms to secure additional land under Title I of the Elementary Secondary Education Act, (Federal Education Act).

The board also supported a resolution adopted by the Cajon Valley School District Board asking the State Legislature to amend the Brown Act to permit governing boards to meet in executive sessions for the purpose of preparing the board's position pursuant to the "meet and confer" provisions of the Winton Act.

They also granted permission to the District administration to proceed with plans to convert an existing portable unit in the Educable Mentally Retarded program for additional office space and report back to the board.

## Students Sketch

### Hospitalize

### Servicemen

By Laura White

Four Monte Vista art students are currently part of a group who sketch portraits of patients at the Naval Hospital in Balboa Park.

The group, organized by Miss Angela Bernardini, a commercial artist, contains about 40 amateur and commercial artists and is constantly growing. The group includes about 22 students and 20 adults.

The students, Joy Antell and Frank Lowe of Spring Valley, and Kathy Phillips and Robert Newton of La Mesa, spend every Sunday from about 2 to 4 p.m. at the hospital. There they tour a ward previously selected by the Red Cross, and ask patients if they would like their portraits sketched.

They've toured psychiatric wards, tubercular wards, wards with Viet Nam injuries, and even contagion wards where they had to wear sanitized gowns in order to be able to go in.

"The guys are lonely and like to have someone to talk to," Frank Lowe said. "They really don't care how the portrait comes out."

All the students agreed that the experience is fun and practical. They said they got useful practice by doing the sketches and enjoy the visits with the patients.

Monte Vista also has the distinction of having the most participation from any one school or organization.

"I know that Monte Vista is proud of them," said Miss Bernardini in an interview, "and I am grateful to Mr. Gray for his cooperation."

More than 25,000 eighth grade students will take part in the county-wide program.

## Van Deerlin Will Seek Fourth Term in Congress

WASHINGTON — Rep. Lionel Van Deerlin, D-San Diego, announced Wednesday that he will seek reelection this year to a fourth term in the House of Representatives.

"I will campaign strictly on my record," he said. "Personalities will not be an issue, as far as I'm concerned. It will be up to my opponents to show—if they can—how they could better serve the 37th Congressional District."

Van Deerlin cited the following major federal developments in the district—all of which have occurred since he first took office five and a half years ago.

Construction of the Chula Vista desalting complex; leasing of the Naval Repair Facility graving dock to private shipyards; a concerted effort by U.S. and Mexican authorities to stamp out rabies in the border area; advancement of proposals to cut a second entrance to San Diego Bay and to dredge the South Bay for deep-draft shipping; authorization of a Tia Juana River flood control channel and upgrading of the Imperial Beach Naval Air Station.

"And that's only part of the story," Van Deerlin said. "Thousands of my constituents are benefiting from Medicare, increased aid to education, military and Civil Service pay raises and other programs which I supported."

"Let my opponent tell the voters exactly how he would improve on this record."

Besides working for his district, Van Deerlin has built a reputation as a strong proponent of health and consumer legislation. Last year he played a key role in winning passage of a House amendment requiring the auto industry to meet California's stringent standards for controlling deadly exhaust fumes.

## 'Trustees Always Under Pressure' Speaker Says

The marijuana problem is greater at Helix than any other school in the (Grossmont) district," Bob Dryden, Grossmont High School/ Junior College Districts trustee told the Lemon Grove Men's Club Friday.

"Our policy is to drop students involved in drugs, pills or marijuana, and I know of nothing that indicates that the policy is bad," he said. "My strong opinion is that if a student is guilty of using or possessing any of the stuff, he ought to be put out and kept out."

Dryden talked of the district's growing problems. "You have no idea of the pressure that comes with taking a position not in line with that of the administration or the teachers."

He said issues ranged from unionism to override elections and from tenure to sabbaticals.

"Right now it is the issue of permitting Communists on campus. The Superior Court this week upheld the right of

the Board to ban Communists although the sponsors of the event were invited by the Court to re-submit a complaint against the Board for the ban."

Dryden urged members to encourage citizens to serve on the school board. "If the college and high school boards are to be split, as I think they soon will, there may be as many as six positions open when the election comes. Three terms will expire and it may be that six posts on the divided board will be open."

These positions should be filled with thoughtful, sincere citizens. The time to encourage people to serve is long before the filing date," he said.

The Men's Club meets each Friday at noon at the Bowlero. Clifton Clark presides. Supervisor Bob Dent will be speaker at the club Friday.

## Colt League Needs Players

Attention! Boys 15 and 16 years of age . . . Do you want to play Colt League baseball this year?

The Spring Valley Colt League is sorely in need of boys that age. Recently registrations were held, but not enough boys signed up.

The league will need at least 30 and should have 40 or more boys to get the 1968 season under way.

Boys, if you are interested in America's great (and No. 1) game, phone the president of the Spring Valley Colt League, Orville Schuff at 469-4825. His home address is 1308 Walbollen st., Spring Valley. You may sign up anytime.

Also needed are more officers. Officers elected so far are: Orville Schuff, president; Mike Allenson, vice president; Rud Sullivan, secretary; and Fred Crawford, players agent.

As soon as the 1968 season begins, the league will be playing on the Monte Vista High School Colt League Field.

## Gymnastics Club Started at Monte Vista High

Coach Steve Shoemaker has started a new gymnastics club on the Monte Vista High School campus, in the hope that its activities may become a regular part of the athletic program.

Club members meet twice a week at 7 a.m., working out on horizontal bars, rings, ropes, parallel bars, tumbling, side horse and trampolines.

Coach Shoemaker, himself a gymnast during high school and college years, hopes other schools will start similar programs so that inter-school competitions can be held.

## Girls Bake for Vets

Junior Girl Scout Troop 103 of Avondale School baked 104 birthday cakes for Vietnam veterans celebrating birthdays, at Balboa Naval Hospital. The cakes were picked up by a Red Cross worker at the home of Mrs. Charles Budd, leader of Troop 103.

The college board, at the time it rejected a request for Taylor's appearance on campus, approved the appearance of Laurence Baldauf Jr., a former Navy flier and a spokesman for the John Birch Society.

Judge Lazar ruled that the club and faculty members who signed the petition asking relief from the trustees decision, could re-apply if a different approach were taken.

The student Open Forum is represented by Charles Dunbar of Lemon Grove, and faculty members who signed the petition were:

Tom Ruth, Richard Manzella, Jacquelyn Hall, Gordon Shields, Gerald Ashley, Neil Towne, Don Shannon, Abel Sykes, Melvin Amov, Robert Holden, Jack McAuley, Robert Moore, James Peters, and Donald Roper.

The Open Forum club withdrew its invitation to Baldauf Friday. Dunbar said that Baldauf's appearance might jeopardize the case against the trustees, according to Baldauf.

## Learn Spanish the Easy Way

## Hardison's Telespanish

What does the word "Siga" mean in Spanish? I have seen this word and many others I did not understand on the road signs while driving in Baja California. Can you give us some of the other words that are seen on road signs below the border?

The word "Siga" is taken from the word "seguir" which means "to continue." The word "siga" is an imperative form of the verb and means "go" or "continue."

Some important road signs might have "Alto" (Stop), "Angosto" (Narrow), "Bajada" (Down grade), "Cuidado" (Careful), "Curva" (Curve), "Despacio" (Slow), "Escuela" (School), and P.C. (ferrocarril) which is abbreviated like the English R.R. for railroad crossing.

A long worded sign that frequently creates a minor problem for drivers of automobiles across the border is "Prohibido el estacionamiento" which means emphatically "No Parking."

These words may also be used in phrases or simple sentences. For example we may say "No sigi" which is the imperative for "Do not continue" or "Siga usted!" for "You continue!"

See if you can find the "sign" words in today's lesson.

## Social Security News

The Lemon Grove Review presents this question and answer column about the Social Security Program as a public service to our readers. The questions are those most frequently asked about Social Security. The answers are provided by Sumio Oto, El Cajon Social Security District Office Manager.

**Q. I would like to retire at the end of September 1968, but will have earned about \$8000 before October. Does this mean I cannot get any benefits during 1968?**

A. Under the 1967 amendments to Social Security, you can get full benefits for any month you earn wages of \$140 or less, or do not perform substantial services as a self-employed person, regardless of your total earnings for the year. This \$140 per month rule takes into account that some people retire in the middle of the year or later.

**Q. I have heard that once you reach a certain age, you can earn as much as you want and still collect your social security. Is this true?**

A. Yes. This is an exception to the general rule and was put into the law because some people work to an advanced age and never retire. Beginning with the month of your 72nd birthday, you can be paid all your social security benefits regardless of your earnings. This is still true under the new law.

**Q. I draw a wife's benefit and have no work credits under Social Security. Can I qualify for health insurance when I am 65?**

A. Yes. Anyone who qualifies for benefits as the dependent or survivor of an insured worker will qualify for health insurance at age 65 without regard to his own work record.

If you have further questions regarding changes in the Social Security Law, write or contact the Social Security District Office, 1075 East Main Street, El Cajon, California 92021. The office open from 8:30 a.m. until 4:30 p.m. Monday through Friday and until 7:30 p.m. on Wednesdays. The phone number is 442-0851.

**Total Business 1-2-24**  
Dun & Bradstreet announced this week that the number of businesses in San Diego County increased 646 during the past year — for an increase of 6.2 percent.

Percentage-wise, Bonita increased the most — up 46.5 percent. There is a total of 19 businesses there now, compared with 13 a year ago. Sunnyside suffered the most — percentage-wise. There are two firms there now as opposed to three a year ago — for a minus 33 percent.

Tecate remained static — two businesses last year, two this. Spring Valley enjoyed a small gain. There were 143 firms in Spring Valley a year ago. Today, there are 145. The gain, 1.4 percent.

Lemon Grove also had a small gain. 206 firms grew to 210 for a gain of 1.9 percent. Chula Vista increased 14.4 percent from 458 to 524. San Diego City increased 8.1 with a new total of 5373. A sad note was registered in the City of Del Mar. With 62 firms listed last year, the city could count only 23 this year. The rerouted traffic on the freeway was taking its toll.

**ARGENTINA STUDENTS VISIT:** Students from Argentina are shown as they examine textbooks while visiting Stanley King's sixth grade class at Highlands School, Spring Valley.

From left to right are, Stanley King, teacher; Jose Corre-

doira, Alberio Suoto, Nelido Ruffino, Gustavo Santaolalla, Alicia Freaza, and Juan Podesta. The boys are from the Buenos Aires area, while the two girls are from Northern Argentina.

## Operation Amigo Visits Highland Elementary School

Highlands Elementary in Spring Valley was host to six students from Argentina. The students are participating in Operation Amigo at Monte Vista High School.

Sixth graders at Highlands have been studying about South America. The Amigos visited the sixth grade class-

rooms and answered the questions of the children.

The children were enthusiastic and the situation provided a good learning experience. The children were interested in Argentine education.

They asked questions like, "How many subjects do you take in school?" "What grade

are languages taught?" and "Are American television shows seen in Argentina?"

The six Amigos, Alicia Freaza, Nelido Ruffino, Juan Podesta, Alberto Souto, Jose Cor-

redoira and Gustavo Santaolalla, saw a typical classroom in action.

After the questions, the Amigos talked informally with the children. They looked through textbooks and asked what the children were learning.

The Amigos then ate lunch with the faculty and returned to Monte Vista.

## Mail Bag

Dear Editor:

One of the means by which we are supposed to recognize the liberal is his respect for the rights of the individual. You ask one about this and he will hold forth at length and with great fervor, on personal liberty and the rule of individual conscience.

If he is particularly erudite, he will tell you how Jefferson gloried in personal freedom. If he is a left leaning, radical liberal, he will give as an example of rule of conscience, the right of an individual to refuse to serve his country in wartime if he disagrees with that particular war.

Or he will fight to get his Peace and Freedom political party to vote for open support of his country's enemies, the Viet Cong (by majority vote of delegates at Peterson Hall, San Diego State College on Saturday, 24 February).

If he is all of the above and also a radical teacher, he will work tirelessly, writing notes to other teachers, using college repro facilities, and during college hours, to get each campus organization, such as the Grossmont College Faculty Senate, and even the College Administration to vote to support him and the ACLU in a law suit against the College Board of Trustees in an attempt to force them to allow a communist to speak on campus.

By some process of faulty logic, he will equate the board's stand to their possible prohibition of mini-skirts, certain plays, literature, works of art, and teaching of evolution.

Now notice the inconsistency between radical liberal stated philosophy and his acts. There are, no doubt, many people in the Faculty Senate who do not agree with this ridiculous action. What about their individual rights not to be involved? And they are involved by virtue of membership, and the publicity which will result.

What about the rights of the

taxpaying people to expect teachers and counselors to perform the function for which they were hired? Or the duty of our elected representatives, to board, to fire them if they don't?

Finally, what about the rights of taxpayers and parents not to have our youth subjected to the lies of a foreign ideology which is one with the enemy that is killing our young men in Viet Nam? What and who is behind all of this? Radical liberal leftist or ???

## Fire Dept. Calls

Some flooding, due to excess rain in the Spring Valley area, this past week, kept firemen busy, while a couple of falls, a couple of heart attacks and several illnesses, kept the ambulance crews on the go.

About four crews from the department were out during the heavy rains in the Casa de Oro area and in south Spring Valley, sandbagging several homes and digging ditches to keep water from encroaching other homes in low areas.

## Spring Valley Kiwanis Club Hosts Lemon Grove Kiwanians

The Spring Valley Kiwanis Club conducted its weekly breakfast meeting at Alfonso's Pizza Inn with the Lemon Grove Kiwanis Club as its guest.

It was announced that the Lemon Grove Club will conduct its annual pancake festival March 30 in the Lemon Grove Junior High school serving from 7 a.m. to 7 p.m. Tickets are \$1 donation for adults and 75 cents for children.

Guest speaker at the Spring

Valley meeting was Edward A. Smith, a member of College Grove Kiwanis Club and former Lt. Governor of Division 21. He spoke on "Kiwanis Education."

Smith gave a short history of Kiwanis, saying it began back in about 1914 as the Supreme Council Benevolent Order of Brothers, and was established for the benefit of businessmen.

In 1915 the name Kiwanis was adopted, the name being taken from an Indian legend. Now the Kiwanis slogan is "We Build." He said the first club established outside the United States was in Ontario, Canada in 1962.

Since then a club has been set up in Tijuana, Mexico.

There are 23 countries around the world in which there are Kiwanis Clubs, with a total of 5500 clubs. There are 5106 clubs in the United States.

If you are a Kiwanian and a worldwide traveler, Smith said, you may be able to attend a club meeting almost anywhere.

Two of the main objects of Kiwanis are enduring friendships and better communities. Smith said that the objectives are set by the International Council, but the actual work is done by the individual clubs.

Phillips said also that the collection of books recently acquired from Stanford University has caused a great deal of interest among students, professors and the general public. There have been many inquiries about the volumes, Phillips said.

There was further discussion regarding the 200th anniversary celebration of San Diego, at the meeting, and was brought out that the Spring Valley Historical Society is a member of the County Historical Society, and will take a big part in the celebration in 1969.

Phillips said the S.V. Historical Society is gaining members and contributions regularly, although no membership drive has been announced.

## Sutton, Cornelius To Head L.G. Summer School Program

L.G. School Trustees assigned Bob Sutton as director of projects for the district. He will have the responsibility of co-ordinating evaluating and supervising state and federal programs. He will be employed 11 months a year.

Sutton has been with the district 18 years and is on sabbatical leave from his post as principal of L.G. Junior High school. He was the first principal to get into the principal exchange program. He exchanged with his equal number in Honolulu.

The assignment will be-

come effective when he returns from his leave.

The Lemon Grove School Board Monday night named Wiley Cornelius and Robert Sutton to direct the summer school program at Lemon Grove Schools.

Six elementary schools and L.G. L.G. Junior high school will have programs. Last year four elementary schools were used.

The summer program starts June 24 for five weeks.

The board also approved the expenditure of \$3 a student for developmental costs for data processing at the County Regional Data Processing Center.

Byron Netzel, district superintendent was directed to initiate applications for the Head Start program next fall. The program, if approved, will handle 30-40 pre-school youngsters in classrooms at the L.G. Lutheran church. The program is to be State funded and will be operated for welfare and "potential" welfare recipients.

## Tax Relief Ok'd by Sups

SAN DIEGO (CNA)—Legislation that would reduce the county's tax rate to about 45 cents per \$100 of assessed valuation has been introduced in the state assembly.

The County Board of Supervisors voted Tuesday to support the bill which also would give the home owner relief by doing away with a householders personal property taxation.

Assemblyman John Vene-man, R-Modesto, agreed to an administration amendment to his personal property measure that would use \$191 million collected from a one-half cent sales tax for local property tax relief.

**How do you own a stack of Savings Bonds when you're older?**

**Start young.**

Start small, if you want to, but start steady. The important thing is to have a regular program of setting something aside every payday.

What's most important: it's never too early to begin.

You say that takes more will power than you can muster up on a regular basis? Then use the easy, automatic way: join the Payroll Savings Plan where you work.

This way your employer saves your money for you—puts it toward the purchase of a U. S. Savings Bond.

Pretty soon you won't even miss the money. In fact, you'll probably forget how fast your savings are growing. Here's a for-instance: just \$4.33 a week adds up to the \$18.75 you need to buy a \$25 Bond every month. That's \$300, maturity value, a year. Not bad for a former spend-thrift! What's more, those few dollars you're tucking away to grow will be working all the time to help keep our country strong and free.

So start now, start young, building up the savings that count so much later on. Join the Payroll Savings Plan before next payday.

# Care Units Could Save 'Hearts Too Good To Die'

More than 50,000 persons with "hearts too good to die" could be saved annually if all hospitalized heart attack victims had access to coronary care units or comparable facilities.

Dr. Jesse E. Edwards, President of the American Heart Association, made the statement in a Chicago address opening the 1968 Heart Fund Campaign.

Dr. Edwards said that optimal expansion of coronary care units would "yield the lifesaving equivalent of an estimated 50,000 successful heart transplants yearly." (This is a number believed to be far beyond the ultimate potential of transplants.)

"This lifesaving is possible without worry about blood compatibility; without organ rejection; without surgery. It is possible within the framework of our existing knowledge, technical ability and financial resources," he said.

The two major coronary care units here are at Sharp and Mercy Hospitals. The Sharp Hospital unit is part of the Heart Center complex which was established 10 years ago by the San Diego County Heart Association as

a prototype. San Diego County Heart Fund dollars, with assistance from General Dynamics Employee Con-Trib-Club, still provide equipment and aid for the Sharp Heart Center.

Dr. Edwards said coronary care facilities improve the survival rate about 30 per cent. Of about 5,000 U.S. Hospitals treating acute heart patients, only about 800 have coronary care units or their equivalents.

The San Diego County Heart Association provides training courses for care unit nurses and personnel of hospitals that are installing the intensive care units.

The coronary care unit is a relative recent concept. It provides continuous monitoring of the vital functions of hospitalized heart attack patients with an alarm system to alert an around-the-clock team of skilled medical and paramedical specialists trained to cope with sudden emergencies.

"When we examine a heart after death, we usually find more than an adequate amount of healthy muscle for good heart function," said Dr. Edwards. "The patient is dead with a heart 'too good to die.' We see a heart that might still

be beating had its owner been fortunate enough to have been in a coronary care unit."

Dr. Edwards said the Heart Association has used more than 133 million Heart Dollars for research in the 20 years since it became a national voluntary health agency.

Among the advances developed with these donated dollars are the heart-lung machine, which keeps the patient alive while surgeons correct defects and perform transplants and implants.

Dr. Norman Shumway and his Stanford Medical Center team used \$400,000 Heart dollars for research prior to the first transplant there.

Other Heart Fund achievements include pacemakers to regulate heart beats and b-cillin treatment in rheumatic fever cases.

Dr. Edwards said needs now include establishment of more coronary care units and training personnel for them; and more knowledge on minimizing risk factors and reducing the incidence of heart attacks.

"What we seek is a heart and circulatory system so free of disease as never to require either transplants or mechanical replacement."

## Service Notes

Pvt. Thomas Moore

Marine Private Thomas J. Moore, son of Mrs. Robert J. Miller of 8395 Golden ave., Lemon Grove, completed two weeks of training under simulated combat conditions in the fundamentals of day and night patrolling, employment of infantry weapons, survival methods and assault tactics at this Marine Corps base.

This individual combat training is given every Marine after his graduation from recruit training. Taught by combat experienced non-commissioned officers of the infantry training regiment here, it prepares the young Leatherneck to become part of the Marine air-ground combat team.

While in the field he was taught how to use hand grenades, a compass and the principles of map reading and land navigation. He learned how to detect and disarm mines and booby traps and, while being exposed to live machine gun fire, he learned to advance safely from one point to another.

From this course, he is scheduled to go on to more advanced training before being assigned to his permanent unit.

## Rancho School Holds Patriotic Program

Two assemblies, a patriotic program and a program of opera selections, were held recently for students at Rancho School in South Spring Valley.

The patriotic program, presented for the entire school, featured a verse choir directed by Robert Townsend, fifth and sixth grade teachers, and the school chorus directed by Mrs. Doris Joliff.

Blaine Johnson provided the accompaniment. Mrs. Joliff and Johnson are fourth and sixth grade teachers, respectively.

The verse choir presented the number, "America - Our Heritage," a selection prepared from several sources by Townsend. It described the feelings children have about being Americans.

The chorus sang traditional American patriotic song. An instrumental and vocal group of semiprofessionals presented selections from Hansel and Gretel, Die Fledermaus, Carmen, Die Magic Flute, and Cavalleria Rusticana.

Mrs. Eugenia Milroy, a participant in Cal Western music workshops, arranged the program and was a featured soloist. Narration was by Vere Wolf, librarian of fine arts at the San Diego Public Library.

## Students Not Going To Pot, Says Writer

by Vern Mathews

This high school student didn't want to talk about marijuana. He had other and more pressing problems, like whether to give up swimming or baseball. He was miserable that he couldn't go out for both.

Sure, he'd smoked cigarettes (tobacco) but gave them up last fall when he went out for football. Sitting there in the car, hitching a ride home from school, he didn't look big enough for football.

He seemed young, too, maybe 15. It looked as if he wasn't going to answer the question about pot.

Others did, though.

315 Last Year  
Sergeant Bob Ryan, in charge of narcotics for the county sheriff, for example, speaks of the number of juvenile cases dealing with narcotics, marijuana and dangerous drugs. It was 315 last year, 47 the year before. 3 out of 4 cases involved boys, 1 out of 4, girls.

Sgt. Ryan estimates that over 90 per cent of the marijuana in San Diego County comes in from Mexico. No one knows, of course, exactly what this totals. It's part of the iceberg that can't be seen. But a lot of pot is reaching the border these days.

Some of it—U.S. Customs authorities at San Ysidro Station report 25,000 lbs. intercepted in the last six months of 1967—gets caught. They estimate a much larger amount gets through undetected.

This in spite of a competent, over-worked staff of inspectors who have nearly made an exact science out of intuition.

How many high school students experiment with, or use marijuana. Again, there's no known set of figures. An interesting sidelight in this direction, though, is a poll—admittedly of questionable accuracy—taken in January at Monte Vista High School.

POLL TAKEN  
The poll was conducted by student editorial staff mem-

## New Members Listed For Court Teresa

Court Teresa of Avila No. 1580, Catholic Daughters of America, Lemon Grove have recently acquired new members in their court. Among them were Mmes. Mario Chavez and Michael Russell. They were initiated at Court San Diego de Alcalá on February 14.

Also, to be initiated from this court at Court St. Colum in San Diego on March 17, are Mmes. F. J. Postles and Katherine Beaulieu.

The Juniors who are sponsored by Court Teresa of Avila under the direction of Mrs. U. C. Easterling held their initiation on Sunday, March 3, at St. John of the Cross Parish hall. The girls accepted were Debra Bendixen, Margaret Kohanek, Janet Jones, Dawn Brown, Ida Lujjan, Kathy Toporczyk and Susan Edgil.

The Rt. Rev. William Hart and Mrs. Stanley Jasek, Area Chairmen of Juniors and Juniores, were guests of the Junior court.

The Senior court was hostess to the reception with Mrs. Wayne Huber, chairman.

bers of the school newspaper, The Royal Page. Findings were summarized on the paper's editorial page, skillfully analyzed and the whole presented with a surprisingly mature viewpoint.

The question asked was, "Have either you or one of your five best friends ever blown pot?"

More than 350 students are reported to have been polled, about two-thirds of this number being in junior or senior classes.

"Yes" answers, among juniors and seniors, are reported to be about one-third, less among freshmen and sophomores.

A salient point here is the part of the question that reads, "... or one of your five best friends..." And this makes any estimate of actual occurrence impossible.

Actually, the accuracy isn't important. That the students are seriously studying the question is.

Why do students experiment with marijuana, or use it? One student says this question will get as many kinds of answers as there are people. And he may be right.

Some young people say users take it up because they feel it's 'in', some out of a sense of rebellion, some to get away from regimentation.

Escape From Pressure

The principal of a nearby high school feels that the overriding reason is that of 'escape'. It seems to cover most of the other, narrower, reasons.

The 'escape', of course, is from daily pressure. The pressure on a high school student is very real, he says, and it comes from all directions.

It stems from (for boys) imminent draft, from the urgency to make grades to meet college entrance requirements, from parents, oftentimes unintentionally, and from a variety of other sources.

He goes on to say that it's just as inescapable for the kids as it is for their parents. The frontiers are gone, and it's impossible to break free by heading west into the wide-open spaces. There aren't any left.

The solution? He has one: Parents and schools to teach kids how to cope with the pressure and, parenthetically, they will be less inclined to use marijuana as means of escape. They won't need it.

He notes there's far less inclination toward marijuana among students who take part in activities such as sports, clubs, other school programs.

However much marijuana usage there is among high school students, it appears that legal penalties, severe as they are, don't pose a major deterrent. And they are severe.

Sgt. Ryan lists them as 1 to 10 years for possession, 5 years to life for pushing.

Wrist Slap Only  
Asked why such drastic penalties don't scare off high school users, one spokesman in a small group said juveniles usually got off on probation for a first offense.

Kenneth Fare, the county's chief probation officer, estimated that 80 percent of the juvenile cases result in probation in the case of a first offense.

A tangential facet of juvenile detention on marijuana (or other charge) lies in the cost to the county. A juvenile on probation, Mr. Fare says, generally costs the county about \$375. per year. Confinement in an institution can run as high as \$6,000. per year.

Is marijuana addictive? Physically, no, not in the sense that hard narcotics are, according to a Lemon Grove physician and surgeon. It is, however, psychologically addictive.

He said one area of controversy that is getting resolved, the one dealing with the comparative impacts of marijuana and alcohol.

Laboratory tests, he says, including some using encephalographs, now indicate physical and mental faculties more severely impaired by marijuana than by alcohol.

Judgment Fails

Perhaps chief among these, he says, is the loss of judgment in dealing with potential danger, such as walking in front of a moving car.

That the use of marijuana is getting a lot of attention can be measured by the numbers of requests Sgt. Bob Ryan receives for lectures to civic groups and clubs. They come in, he says, at the rate of about five each day. He and his staff respond whenever possible, although sometimes at considerable loss of personal time in the process.

Understandably, they give preference to larger groups, those of 75 or more.

Dr. Stanley McClintic, Assistant Superintendent of the Grossmont Union High School

district, instituted a Phys. Ed. program which includes several movies, supported by data prepared for use by principals and staff.

One common complaint is heard from among those concerned with high schools or law enforcement: Their jobs are made doubly difficult by public announcements from responsible people that there is no harm in marijuana.

There's a Customs Inspector supervisor at the border, a man of obvious competence and dedication, who is outspoken about this.

"They're liars," he says from long years of experience, "or fools."

Some of his customers don't agree with him, obviously. In one of the Detention Rooms in the Secondary Inspection Building there's a neatly pencilled inscription.

It reads, "Legalize Pot."

A dissenter has written on another wall of the same cell, "Dope is a Bust."

Underneath that, written in still another hand, is a single word.

It reads, "Amen."

The high school student hitch hiker finally got around to answering the question about narcotics.

"Dope," he said impatiently, "is dumb," and quickly got back to baseball.
